

To whom it may concern:

I have known Rev. Ed Mutum for many years as my Pastor at Asbury Methodist Church. His sermons touched on real life situations and you could not help but walk out of church knowing that God loved you and forgave you.

Four years ago I was in a place in my live, created by my own doing, that devastated not only me but my family. I had broken the law and had hit rock bottom. I became suicidal and had lost all hope of ever seeing my children grow up. Ed was there for me when I didn't even know I needed the help. Because of his faith in me and the person I truly was I have been able to turn my life around. Ed taught me first to admit what I did and stood by my side as the justice system worked. By the grace of God, I was never incarcerated and have had the chance to start my life over. I have learned to communicate with others, have faith in myself, and I have a relationship with God that I never knew was possible. This was not an easy walk but Ed was there to coach me and believe in me every step of the way. I do not know what would have happened if Ed had not been there, but one thing is for sure—I would not be enjoying life with my husband and children or the owner of a great new business. Ed gave me the confidence to enter the business world in a way I would have never imagined. When I am not at the center helping customers I am traveling to give trainings or to speak.. God blessed me when He put Ed Mutum in my life!!
